***Life events and documentation MUST be submitted within 31 days of the event occurring.**

*** QLE document support must include the date the coverage begins/or ends and the name of each covered member affected by the change.**

Special Enrollment Instructions for Qualifying Life Events (QLEs)

Eligible employees who experience a qualifying life event (ex: marriage, birth, divorce, etc.) are allowed to make certain changes to their benefits **within 31 days of their life event date**. Employees must:

- Submit their benefit change request, along with any required documentation, online via ArchHR within the 31-day timeframe.
- Submit required supporting documentation

Events are placed in a “Pending” status in the system and reviewed by the Benefits Specialist for final approval. If the request is approved, the benefit change will be retroactive to the event date. **If the employee misses the deadline, they will not be allowed to make changes to their benefits until the next annual open enrollment period.**

For some special enrollment periods, an employee may be able to switch between medical plans.

For persons losing other group coverage, special enrollments/qualifying life events are effective the date the other coverage ends, granted the benefit request and documentation is submitted online in a timely manner. Special enrollment is not available if the previous coverage loss resulted from fraudulent activity or because the person did not pay premiums.

A list of all qualifying life events and required documentation is indicated on the next page and must be submitted/uploaded online via ArchHR within 31 days of the life event date.

***Notes:**

- If coverage ceases for a dependent turning 26 years of age, his/her benefit coverage ends on the last day of the birthday month.
- QLE document support must include the date the coverage begins/or ends and the name of each covered member affected by the change.
- QLE's are controlled by the IRS, not the Archdiocese.
