

NetLessor Minor Release

2026.1.6.0 - June 17th, 2026

Minor Updates

- Allow users to select an invoice grouping option even when no default grouping is configured on the Setup page.
- Added support for modification preview when using a standard or complete modification.

Bug Fixes

- Improved handling of Intercompany Vendor and Customers when importing a Transfer Proposal.
- Locked initial payment date field when a lease is locked.
- Fixed changing initial payment amount during a true up modification resulted in no change in payment schedule.
- Prevent uplift alert from displaying when changing non-lease payments during modification.
