

Changelog

2023.1.1.0 June 16th, 2022

Minor Updates

- Support for GASB Lessor Leases inside of NetLease
- Alert when ROU Asset Useful Life is longer than Lease Term
- Fixed issue picking up close out schedule lines when running mass close outs
- Fixed issue with picking up final payment when end date is not the last day of the month and previous payments are on the 28th, 29th, or 30th, but not actually end of month payments
- Updated time machine to revert status back to pending close out when reversing just the close out transaction
- Fixed issue generating duplicate schedule lines when double clicking Generate Schedules button
- Added vendor filter to the monthly bill generation page
- Updated Bill button to default date based on non-lease payments in the absence of a payment
