

Changelog

2023.1.1.1 June 23rd, 2023

Minor Updates

- Fixed issue with decrease in scope modifications that do not contain any go-forward payment / lease term changes intermittently not producing a modification line
- Fixed issue G/L Roll Forward when ROU Accumulated Amortization Account was used as an Amortization Expense account on other lease types
- Moved show/hide logic for customer/vendor fields to client side so that they customer can be entered on creation of a sublease operating lease
