

Changelog

2023.1.0.1 May 26th, 2022

Minor Updates

- Fixed issue with segments getting cleared out during bulk transfers when one of the segments had a high volume of options
- Fixed issue dating pre-go-live modifications performed on the go-live date
- Fixed issue with "Sync To Accounting Periods" button appearing upon view of the NetLease Custom Calendar record when it should only appear upon edit
- Updated billing process to allow for catch up processing
